

Paper Towels – Single Fold

QUESTIONS & ANSWERS

Single-fold, unbleached Kraft paper towel has a 5-3/8-inches deep fold and is 9-1/4-inches wide. Environmentally preferable. Made using post-consumer recovered materials (PCRM). Processed chlorine free. For use in bathroom dispensers.

WHAT ARE THE DIMENSIONS OF THE PAPER TOWELS?

Full Size – 5.375" deep fold 9.25" x 10.75"

DO THE PAPER TOWELS PACKS FIT INTO BATHROOM DISPENSERS?

Yes, our single fold paper towels fit into most conventional bathroom dispensers that are made for single fold use.

ARE THE PAPER TOWELS “GREEN”?

Yes, these paper towels are made with a minimum of 40% post-consumer recovered material. 8540-01-359-0798 is 90% PCRM (Post-Consumer Recycled Content). Which meets or exceeds all EPA guidelines in processed chlorine free certified. EPA-compliant towels contain recycled fiber content and offer dependable, thickness and strength. These paper towels are not made from virgin paper and come directly from a recycling waste stream.

WHAT DOES SINGLE FOLD MEAN?

Single fold towels are paper towels that are folded in half, in a single fold. Not interlocked, but instead they simply lie on top of each other. This single fold towel is excellent for the use in areas that require an economy line of washroom products due to high traffic and/or excessive towel use. Our paper towels are also non-perforated, which helps minimize waste.

WHAT IS A KRAFT PAPER TOWEL?

“Natural / Kraft” is the term given to paper towels that most refer to as brown paper towels. Kraft paper is stronger, due to its reduced lignin content and high sulfur ratio. It also doesn’t involve extensive bleaching and has no harsh chemicals.

IS IT IN COMPLIANCE TO GOVERNMENT SPECIFICATIONS?

Yes, are these disposable single fold paper towels. Designed to dispense one at a time.
